🎓 EDUCATION

PhD in Computer Science , Tulane University 	08/2026 – Present New Orleans, USA
• Research Focus: AI/LLM reliability, AI agent safety, and software engineering. • Current Work: Preventing compositional and decompositional attacks in AI agents.	
MSc in Software Engineering Fast Track Program , Addis Ababa Science and Technology University 	01/2024 – 07/2026 Addis Ababa, Ethiopia
• Awarded a scholarship for academic excellence to join the Fast Track program, which enables students to begin their master's before completing bachelor's degree. • Relevant Coursework: System Architecture and Design, Testing, Project Management, Computer Security.	
BSc in Software Engineering , Addis Ababa Science and Technology University 	05/2021 – 06/2025 Addis Ababa, Ethiopia
• Graduated with Honors (Very Great Distinction), GPA: 3.78/4.0. • Relevant Coursework: Database Systems, Object-Oriented Programming, Data Structures and Algorithms, Machine Learning, Artificial Intelligence, Distributed Systems, Cloud Computing.	
Coding Academy, Africa to Silicon Valley (Backed By Google Twice) 	11/2023 – 11/2024 Addis Ababa, Ethiopia
• Built a strong foundation in data structures and algorithms with 1,000+ hours of study and 600+ problems solved on LeetCode and Codeforces. • Relevant Coursework: Data Structures and Algorithms, Teamwork Experience, Collaboration.	

💼 PROFESSIONAL EXPERIENCE

Full Stack Developer , Omnicasa (Remote) 	11/2024 – Present Brussels, Belgium
• Built a distributed automated video processing pipeline from Notion to Vimeo, orchestrating Redis-backed job queues and asynchronous workflows to process 10–20 customer meeting recordings per week, reducing turnaround time from 2 hours to 15 minutes. • Standardized multi-format inputs (Zoom, Meet, audio-only, .mp4/.ts/.m4a) into decoded MP4s with fallback visuals, ensuring seamless playback. • Automated transcription and post-meeting analytics to reduce review time by 30%, enhancing agent productivity and accelerating actionable client insights.	
Full Stack Developer Intern , Camara Education Ethiopia 	07/2023 – 11/2023 Addis Ababa, Ethiopia
• Contributed to developing an educational platform used by 200+ Ethiopian schools, expanding access to quality education. • The platform supplied digital study materials, including books and past exams, to over 300,000 students. • Implemented front-end features that improved content access, increasing site engagement by 20%.	

📁 PROJECTS

Flutter Clean Architecture VS Code Extension  , Full Stack Developer	12/2024 – 03/2025
• Developed an open-source VS Code extension (190+ installs) that scaffolds Clean Architecture features for Flutter apps using a single command. • Automated generation of BLoC, use case, and repository layers, reducing boilerplate setup by 80%. • Implemented core structure detection and auto-repair logic to enforce consistent modular architecture across teams.	
Miiltoo Knowledge Companion  , Team Lead, Backend Developer	08/2023 – 11/2023
• Led a team of 5 for the development of a generative AI chatbot and quizbot to address Ethiopia's low Grade 12 exam pass rate, where only 3.2% of students scored above the passing point of 50% in 2022/2023. • Managed backend development with Flask, MySQL, and the OpenAI API, handling over 1,000 daily user requests with a response time under 200 ms. • Ranked in the top 9 at the A2SV Generative AI for Africa Hackathon among 3,700+ participants from 47 countries, highlighting its potential to improve exam outcomes.	

🧠 TECHNICAL SKILLS

Programming Languages: Python, Java, C++, JavaScript, TypeScript, PHP, Dart.

Frameworks / Libraries: Flutter, React.js, Next.js, Flask, Django, Tailwind CSS.

Databases: PostgreSQL, MongoDB, MySQL, SQLite.

DevOps & Tools: Docker, Git, GitHub, CI/CD, Firebase, Jira.

🏆 AWARDS

Academic Excellence Award – Graduated with Honors (Very Great Distinction)  , Addis Ababa Science and Technology University	06/2025
A2SV Generative AI Hackathon for Africa Finalist (2023)  , Africa to Silicon Valley (A2SV)	11/2023
• Led a team of 5 to build a generative AI chatbot using Flask, MySQL, and OpenAI API, achieving a top-9 placement out of 3,700+ participants from 47 countries.	
University Presidential Award , Addis Ababa Science and Technology University (AASTU)	03/2021
